As part of [Enlit Europe](#), [Messe Frankfurt](#)

14:00–17:00 CET

PROGRAMME

DIGITALISATION HUB 1 STAGE (Hall 11.1)

14:00–15:00 **Panel #1: Part 1: Managing cyber risk in the electric power sector**

The power network is the most critical and attacked pieces of infrastructure. Following Russia's military aggression and cyberwarfare on Ukraine, European businesses have acknowledged the need to strengthen cyber-defense capacities. This panel debate will address the challenges for the power sector to tackle the growing sources & nature of cyber threats, and how effective policies enable reducing vulnerabilities.

14:00–14:10 **Keynote speech by:** [Hafid Elabdellaoui](#), Vice President Cybersecurity, Oracle

15:00–15:15 **BREAK**

15:15–16:15 **Panel #2: Scaling digital solutions in the power sector**

If scaled across industries, digital technologies could deliver up to 20% of the 2050 reduction needed to hit the IEA's net-zero trajectories. European programmes provide many funding opportunities and support mechanisms, yet the next step is to go "from first sale to full scale". This panel debate will address the policy uptake, market outreach, and societal deep dive necessary to the scale up, scale down and scale deep of digital solutions across the power sector.
